

A woman with long, wavy blonde hair is wearing a white, long-sleeved lace dress. She is holding a large bouquet of flowers, including white hydrangeas, orange roses, and orange alstroemerias. The background is a soft, out-of-focus green landscape.

Stems

PLUS ONE IMPORTS™

4th Edition

4th Edition of *Blooming together*

PLUS ONE IMPORTS™ continues to share our passion for flower stems with you.

As an industry leader for more than 50 years, our goal is to continue to excel in presenting new and exciting products for our customers. Permanent Botanicals have always been one of our specialties. We are dedicated to create the very best replications of what Mother Nature has to offer in color, texture, and style.

PLUS ONE STEMS compliment fresh flowers when the natural flowers are out of season, not available, or are too fragile for the design application or environment. As we interpret Mother Nature's beauty, we wish it to serve as an inspiration to you and your floral artist.

This catalog covers it all! Thanks to the overwhelming success of our first and second edition, we continue to feature a select variety of single blooms, orchids, greenery sprays, and blooming and natural linear branches proved to be timelessly popular. We are also proud to include some new additions to the line, hoping to help you find new inspiration with them.

Whatever the occasion—a glorious wedding, a festive celebration or event, as well as stylized home decor—we are here to support you with an array of stunning florals. It is our hope that you always remember we are here for you, and truly hope you keep inviting us to be your **PLUS ONE**.

Thank you for your support always!

PLUS ONE IMPORTS™ TEAM

Together,
We Bloom!

TABLE OF CONTENTS

Roses	4
Hydrangeas	6
